Academic Committee
Application

Thank you for your interest in joining ISI's Academic Committee.

ISI has identified a need for increased Envision resources for academic uses at universities and colleges. These resources will support an increase in new credential holders, particularly by participation of students. The Academic Committee will advocate for use of Envision at academic institutions and inform ISI of Envision use in the academic sector. The Committee will identify the needs of the academic sector with respect to Envision, and develop resources including, but not limited to: curriculum, guides, etc. Additionally, Committee members may be called upon to serve as points of contact for those interested in implementing Envision within their academic curriculum.

Instructions

- The initial deadline for applications is April 18, 2019.

- Applicants who are selected to participate will be notified by email on or before April 26, 2019 and sent introductory call details.

- Applicants will then be considered and selected on a rolling basis, depending on the need(s) of the Committee, applicant qualifications and areas of expertise, and any other applicable factors.

- To be considered for the Committee, please complete and sign the following application form. The questions on this application will provide ISI with an overview of your professional experience and background.

- Please send your completed and signed application to Lindsey Geiger by email: geiger@sustainableinfrastructure.org.

Application Considerations

The Academic Committee shall consist of between 10 and 20 members. Members of the Committee shall represent as many infrastructure sectors and geographical areas as possible.

Who should apply?

- Candidates who are interested in contributing to ISI in a voluntary capacity.

- Professors, teachers or faculty who are currently using Envision in the classroom or have a strong desire to do so. Student members are encouraged to join the Committee alongside an advising professional member.

- Candidates who are members of ISI and have direct knowledge of infrastructure practices and Envision interest and use.

- Candidates who are already advocates for/interested in advocating for Envision use.

- Candidates who have expertise in Envision implementation and curriculum development
