

YFAR-IN-RFVIFW 2024

ISI is proud to be the hub of a unique community of individuals and organizations working to increase infrastructure sustainability. We thank the public agencies, companies, associations, and academic institutions that are engaging with ISI to champion sustainable, resilient, and equitable civil infrastructure; train and credential professionals; and evaluate projects using the Envision framework. These efforts help our communities to meet their present and future infrastructure needs, protect the environment, enhance human health and well-being, and bolster economic prosperity.

WE ARE GRATEFUL TO HAVE A STRONG NETWORK THAT SUPPORTS OUR MISSION. THIS IS WHAT WE ACCOMPLISHED TOGETHER IN 2024.

ISI continued to bring the **Envision Framework to** Latin America in 2024, through new partnerships with the national Green Building Councils in Chile, <u>Guatemala</u>, and <u>Colombia</u>.

CONFERENCE PARTICIPATION

★ Chile Green Building Council (Chile GBC) ★ Guatemala Green Building Council (GGBC)

- Bogota, Colombia
- Guatemala City, Guatemala
- Hanila, Philippines Rome, Italy
- I Toronto, Ontario, Canada Winnipeg, Manitoba, Canada

ISI staff visited China, the largest infrastructure market in the world, to explore opportunities to apply Envision civil infrastructure projects. Among the highlights: ISI staff led a oneweek verifier training course during the visit! Learn more >

ISI has a partnership agreement with the Canadian Society for Civil Engineering (CSCE) to accelerate the use of Envision in Canada. In 2024, seven projects registered to pursue verification—indicating a strong pipeline of projects in a country where 15 projects have already received Envision awards.

CONFERENCE

In July we looked back on the collaboration and drive that shaped Envision. Learn more >

"People took chances on ISI because there was something worth taking a chance on. People could see it, companies could see it, local governments and agencies could see it. That was very important in giving us time to build the space to allow us to be successful over years. Anthony was so much a part of that."
