

2025
**ISI ANNUAL
CONFERENCE**

Envision the Future of Sustainability

October 22-23, 2025 ◆ Virtual

Call for Poster Abstracts

This is the preeminent event for professionals committed to fostering sustainable, equitable, and resilient civil infrastructure. In 2024, more than 1,800 attendees joined the conference from around the world.

The 2025 ISI Annual Conference will provide an opportunity for us to “Envision the Future of Sustainability,” as we **explore important and emerging issues impacting the planning, design, and delivery of civil infrastructure**. The conference offers a platform for ISI’s network of practitioners, government agencies, companies, educational institutions, and partner organizations to share insights on recent developments, real-world case studies, tangible project outcomes, and innovative solutions, while using the Envision framework as a guide on the path to sustainable infrastructure.

We invite you to **share your knowledge of sustainability and the application of the Envision framework** by submitting a poster abstract. Individual and team submissions are welcome. All presenters will be eligible to win a prize from this year’s poster presentation sponsor.

Poster Presentation sponsored by:

2025 ISI ANNUAL CONFERENCE

Envision the Future of Sustainability

October 22-23, 2025 ◆ Virtual

Conference Session Types

Comments from the 2024 ISI Annual Conference

For an organization to create such a great, annual virtual conference for us ENV SPs to easily access professional development... amazing.

Highly recommended

Many team members are at this conference because we are trying to make Envision a part of our culture from start to finish.

Worth attending; great presentations!

I will be there speaking, participating and learning! It's always such a great conference!

Panel Session

Session Length: 60 minutes | **Number of Presenters:** Up to 4

Panel sessions should maximize discussion among the panelists and answer related questions from the audience. In your abstract, tell us how you would use 60 minutes for a panel, including the discussion topic and who would be on the panel. Information about all panelists (up to 4 people) should be included as part of the abstract submission.

Education Session

Session Length: 30 minutes (20-minute presentation + 10-minute Q&A session)

Number of Presenters: 1-2

Education sessions will feature technical presentations that highlight best practices, how to's, trends, deep dives, insights, innovation, etc. Education sessions may be grouped together under a theme or focus to form a session block.

Lightning Round Session

Session Length: 10 minutes (no Q&A) | **Number of Presenters:** 1

Lightning round sessions will feature multiple presenters grouped together under a theme or focus, occurring successively as a session block. Lightning round presentations might quickly introduce a concept, summarize significant points, or highlight a distinct aspect of a topic.

Project Showcase Session

Session Length: 15 minutes | **Number of Presenters:** 1-2

Showcase sessions are intended for Envision project case studies. Multiple sessions will be combined with Q&A as a session block.

Poster Session

Session Length: 5-7 minutes | **Number of Presenters:** 1-2

Presenters prepare a poster and provide a short summary presentation during one of the poster sessions.
